

DRAKE PLASTICS Ltd. Co.

Position: Technician Trainee

About the Company:

Drake is an industry leader in the development and manufacturing of high-performance niche plastic materials, shapes, and finished parts with a long history of customer satisfaction and success. The company business model/culture and success has enabled Drake to offer a very stable and progressive work environment for employees, which has not had a layoff since the company started in 1996.

Job Summary:

The Technician Trainee is responsible for supporting various production and manufacturing operations as assigned. These operational assignments could include support roles within the extrusion, injection molding, machining, R&D, or facilities department.

Primary Duties / Responsibilities: to include, but are not limited to the following:

- Assist and perform technical tasks or projects as assigned
- Develop and expand technical skill level as assigned
- Potential technical focus areas could include:
 - Operating hand tools and power tools
 - Painting and coating
 - Operating forklift, tractor, loading and pulling trailer
 - Operating extrusion/injection molding equipment, ovens, saws, grinders, etc.
 - Product support: cutting, trimming, inspecting, cleaning, packaging, etc.
 - Equipment maintenance – inspection, disassembly, cleaning, repairs, & assembly
 - Facility support – cleaning, repairs, painting, plumbing, & construction trade support
- Follow all safety and company policies / guidelines (including tobacco free facilities)

Required Skills / Experience / Education:

- Honest and hardworking
- Mechanical aptitude and safety awareness
- Self-motivated with ability and desire to learn new skills
- Career minded individual who can grow in a stable work environment

Work Environment / Schedule: (as applicable)

The Technician position has various work environments, including working within industrial operations buildings, working outdoors, and sometimes various sites. Will spend most of the day on your feet and working with your hands. The standard work schedule is Monday – Friday, with occasional projects requiring weekend support. Work hours are dependent on specific departmental assignment or project, but could include rotating shift support (days, evenings, nights).

Apply:
